PROFESSIONAL SUMMARY

Final-year Bachelor of Business Information Technology student at Strathmore University with hands-on experience in software engineering, digital product development, UI/UX, databases, and data analytics. Software Intern at iBiz Africa (iLab Africa) and Lab Assistant at Strathmore University. Motivated by building digital public infrastructure, AI-enabled products, and technology for sustainable development.

TECHNICAL SKILLS

Languages	Python, PHP, JavaScript, TypeScript
Frontend	Vue.js, React, Next.js
Backend	Laravel, Django, Supabase
Databases	MySQL, PostgreSQL, Supabase
AI & Data	Python, Data Analytics, Prompt Engineering
Blockchain	Solidity (Learning), Smart Contracts (Learning)
Tools	Git, GitHub, REST APIs, Microsoft Office (Word, PowerPoint, Excel)

PROFESSIONAL EXPERIENCE

Software Intern	Feb 2026 – May 2026
<i>iBiz Africa (iLab Africa), Strathmore University</i>	Nairobi, Kenya
- Contributed to the design, development, and testing of digital systems, including UI/UX improvements and system analysis for VTC (Virtual Traffic Court). - Carried out quality assurance testing to identify and resolve bugs ahead of release, supporting system reliability. - Collaborated with cross-functional teams to translate business requirements into working technical solutions.	
Assistant Computer Teacher	Apr 2021 – Sep 2023
<i>Dr. Abraham S. Borbor Memorial School of Excellence</i>	Paynesville, Liberia
- Supported computer lab operations and delivered hands-on technical guidance to students, strengthening their digital literacy. - Assisted with lesson preparation and troubleshooting of classroom hardware and software issues.	
Lab Assistant	2024
<i>Strathmore University</i>	Nairobi, Kenya
Supported computing lab operations, assisting students and staff with technical issues and system access.	

SELECTED TECHNICAL PROJECTS

LibTicket — Digital Event Ticketing Platform (In Development)

Tech: Vue.js, Supabase, JavaScript, REST APIs

- Developing a cloud-based platform for event creation, digital ticket issuance, attendee registration, and QR-code-based ticket validation.
- Leveraging Supabase for authentication, real-time database management, and backend services to support scalable event operations.

LibAI — AI Tutoring Platform (In Development)

Tech: React, Python, Artificial Intelligence

- Developing an AI-powered tutoring platform trained on the Liberian school curriculum to provide personalized learning support for students.
- Building a React frontend integrated with Python-based AI services to deliver curriculum-specific educational assistance and adaptive learning experiences.

LibLand — Blockchain Land Registry Platform (Concept Stage)

Tech: Blockchain, Solidity (Learning)

- Scoping a blockchain-based approach to modernize land ownership records, aimed at improving transparency, reducing fraud, and minimizing land disputes in Liberia.
- Evaluating smart contract architectures for secure, tamper-resistant land registration and ownership transfer.

EDUCATION

Bachelor of Business Information Technology

Apr 2024 – Jun 2027 (expected)

Strathmore University, Madaraka, Nairobi County

Diploma in Business Information Technology

Completed Oct 2025

Strathmore University, Madaraka, Nairobi County (embedded diploma, completed en route to bachelor's degree)

CERTIFICATES

Teacher Impact and Empowerment Training — Certificate of Completion, Level 1

Presenting Data — Level 1

Data Science & Analytics — Level 1

Introduction to Data Science — Certificate of Completion, Level 1
